MEMBERSHIP EQUALS PARTNERSHIP

Mission Statement

The Carpinteria Valley Chamber of Commerce is an organization of businesses unite to encourage a strong local economy, and quality of life by promoting sound local government and an informed membership and community.

Brief History

Our business is the community...and we have been serving the community since 1912.

The Chamber of Commerce offers many value-added programs and services that guarantee better business opportunities for all of our members...and we can for you, too.

A Business Advocate Organization

The Carpinteria Valley Chamber of Commerce (CVCC) has a firm commitment to local business community members. The commitment extends beyond the usual services offered by most chambers.

We provide the leadership role of providing a sound and consistent voice to influence local, county, state and federal legislative policy.

By providing members with a governmental affairs liaison, who works with the Chamber through a Business Advocacy Roundtable (BAR) committee, the CVCC provides a strong regional influence.

This influence, lead by the Government Relations Director, works in concert with elected and appointed officials, so that the business community is considered when issues are brought up for action by government agencies and policy-making organizations.

A strong business community depends on an environment that is supportive of small and large companies.

In turn, viable local businesses play an important part in the success of local schools and provide a positive economic outlook for future generations.

If you are not part of this vital community organization, consider membership a priority.

Creating a partnership with the community...
